BUTTERNUT SQUASH

95-102 days

We are now offering a straight, thick necked strain of Butternut which is considerably more desirable than the strains previously offered which were inclined to have a crooked slim neck. Fruits are 10 to 12 inches in length and 4 to 5 inches at largest diameter. The photograph clearly indicates the superiority of our new strain, in that it is almost 100% usable. Flesh is dry and yellow, and it keeps well. Excellent for pies. Also fine baked or boiled.
